Whiteman Plaster/Mortar Mixers

7- and 9-cu.ft. • Steel or Poly Drums

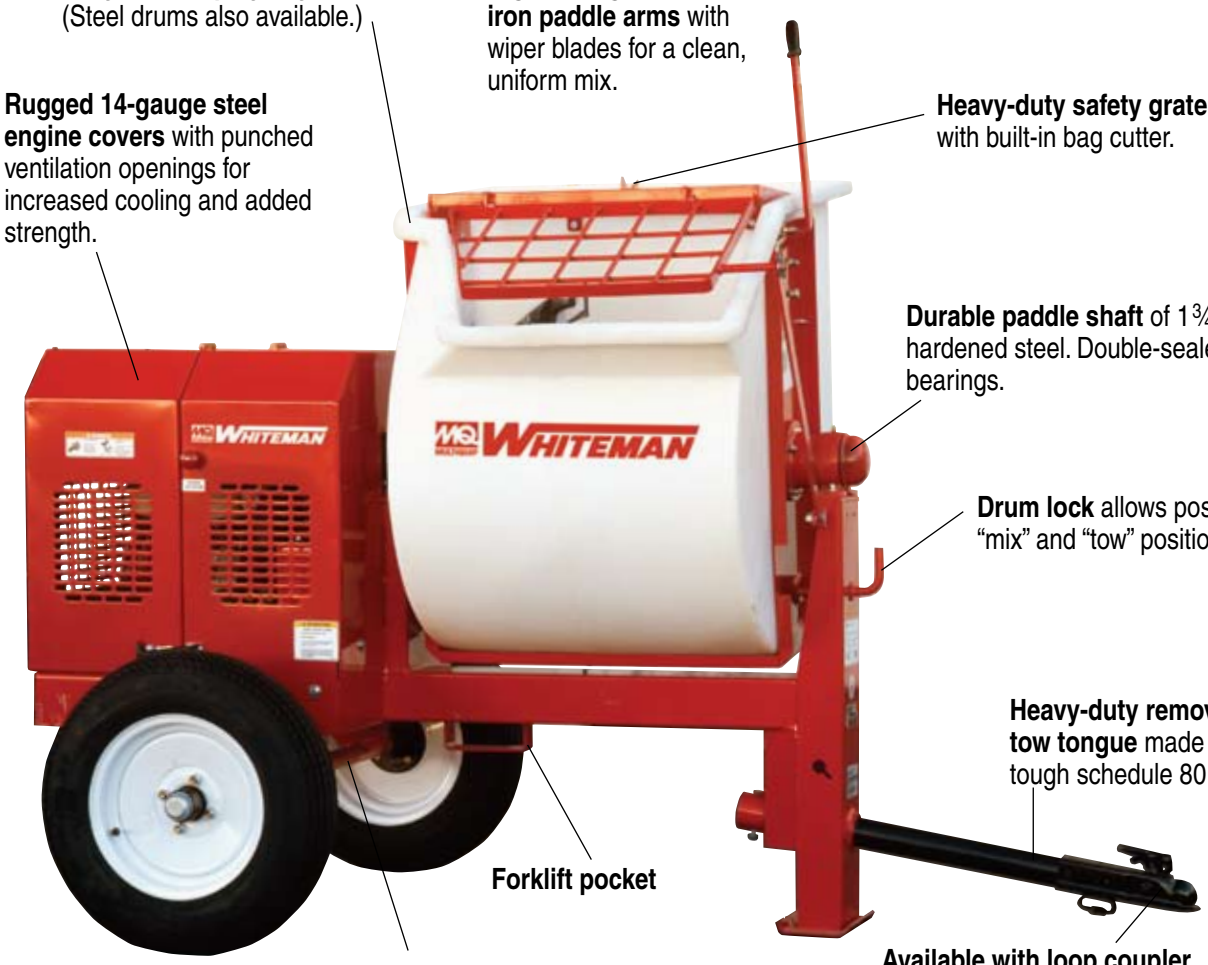
For the professional contractor!

Whiteman mixers have the features, quality, and engineering excellence *preferred by the contractor and the equipment rental industry. Our heavy-duty mixers are reliable, easy to maintain and are available in a full range of sizes and engine configurations for most any application.*

Choose from steel or EasyClean™ polyethylene drums. Whatever your selection, Whiteman sets the standard.

Available in 7-, 9-, and 12-cubic foot capacities, with your choice of power and drum materials.

Model WM90S
(9 cu. ft., Steel drum)



EasyClean™ polyethylene drums. (Steel drums also available.)

High-strength cast iron paddle arms with wiper blades for a clean, uniform mix.

Heavy-duty safety grate with built-in bag cutter.

Rugged 14-gauge steel engine covers with punched ventilation openings for increased cooling and added strength.

Durable paddle shaft of 1¾" square hardened steel. Double-sealed bearings.

Drum lock allows positive "mix" and "tow" positions.

Heavy-duty removable tow tongue made of tough schedule 80 steel.

Forklift pocket

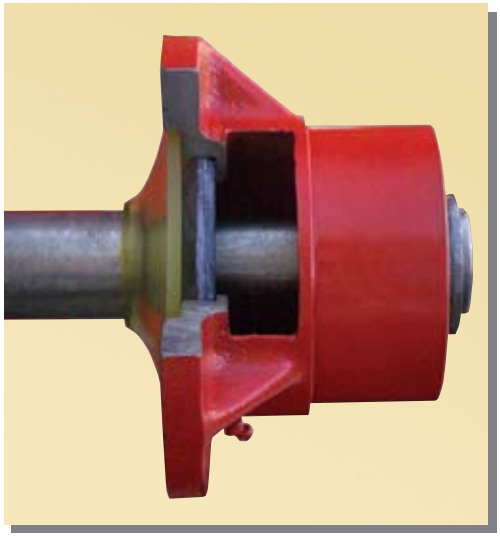
Solid 1⅝" solid axle with large B78x13" tires for smooth towing.

Available with loop coupler, 2" ball coupler or pin-type coupler.

Model WM90P
(9 cu. ft., Poly drum)

Heavy-Duty Features

7- and 9-cu.ft. • Steel or Poly Drums



Innovative seal system. ***Double-sealed bearings with greaseable shaft seals. Specially designed seep hole protects bearings and warns when seal needs replacement.***

Built to last. ***Heavy duty safety grid with auto-open safety bar. Built-in bag cutter. High strength cast iron paddle arms with rubber blades provide a clean, uniform mix.***

Wider dump shoot for faster, easier pours.

Less vibration. ***Engine is mounted solid to base, minimizing vibration. The engine sits level — important when checking oil.***

Convenient, easy operating engine engagement lever.

Thick tubular steel reinforced frame resists damage, provides superior strength and proper dumping clearance.

Double V-belt/gear drive. ***Idler wheel provides easy, positive engagement. Allows larger, heavier mixes. Cast-steel pulleys increase durability.***

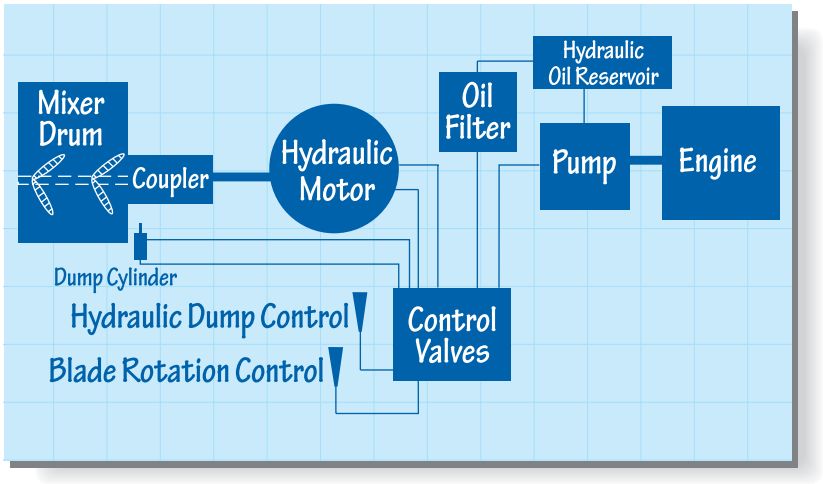
Hydraulic Drive Mixers

12-cu.ft. Plaster/Mortar Mixers • Steel or Poly Drums

Setting the standard for innovation and dependability!

Hydraulic drive...

- **Mixes larger, heavier loads** — ideal for high production requirements and lower slump mixes.
- **Hydraulic dump system** — allows high production with minimal operator fatigue (optional).
- **Greatly reduced maintenance** — no mechanical gears or clutches.
- **Built-in hydraulic safety relief system** — immediately disengages itself in case an object becomes wedged in the drum. Automatically resets when problem is corrected.



Rugged 14 gauge steel engine cover with punched pressed ventilation openings for increased cooling and added strength.

EasyClean™ polyethylene drums. (Steel drums also available.)

High-strength cast-iron paddle arms with wiper blades for a clean, uniform mix.

Heavy-duty safety grate with built-in bag cutter.

Durable paddle shaft of 1¾" square hardened steel. Double-sealed bearings with eight spring loaded greaseable shaft seals.

Heavy-duty removable tow tongue made of tough schedule 80 steel.

Dual controls — mixing blades and optional hydraulic dump.

Solid 1⅝" square axle with large B78x13" tires for smooth towing. Suspension springs standard — less bounce, less sway.

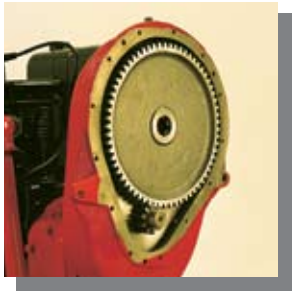
Available with loop coupler, 2" ball coupler or pin-type coupler.

Model WM120PH (12 cu. ft.) — hydraulic drive, optional hydraulic dump, EasyClean drum — available with steel drum

Mechanical Drive Mixers

12-cu.ft. Plaster/Mortar Mixers • Steel or Poly Drums

Whiteman mixes larger, stiffer loads!



Drive gear and multiple-disc clutch are immersed in oil and fully protected for long, trouble-free life.

Mechanical drive...

- **Ideal for high production.**
- **Reduced maintenance** — hardened drive gear and multiple disc clutch are immersed in oil and fully protected for long, trouble-free life.
- **Elimination of high-wear components** — V-belts, pulleys, and external gears.
- **Easily accessible blade engagement lever.**

Totally enclosed transmission eliminates wear due to dust contamination.

High-strength cast-iron paddle arms with wiper blades for a clean, uniform mix.

Rugged 14-gauge steel engine covers with punched ventilation openings for increased cooling and added strength.

Heavy-duty safety grate with built-in bag cutter.

Durable paddle shaft of 1¾" square hardened steel. Double-sealed bearings with eight spring loaded greaseable shaft seals.

Heavy-duty removable tow tongue made of tough schedule 80 steel.

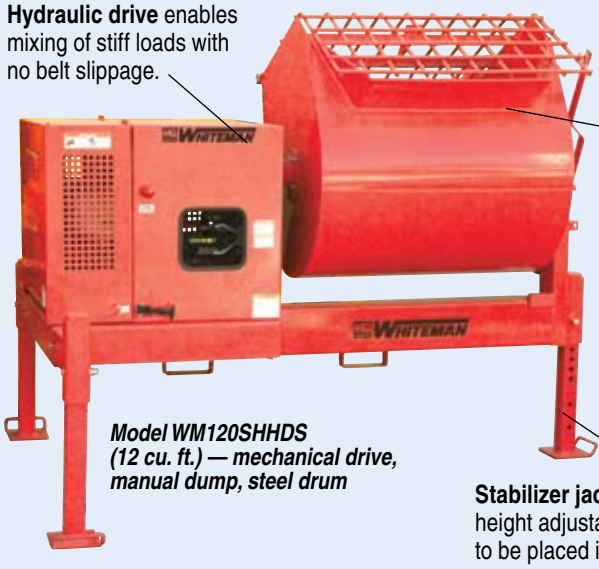
Available with loop coupler, 2" ball coupler or pin-type coupler.

Model WM120SM (12 cu. ft.) — mechanical drive, manual dump, steel drum — available with EasyClean drum

Solid 1⅝" square axle with large B78x13" tires for smooth towing. Suspension springs standard — less bounce, less sway.

Stationary Hydraulic Drive Mixer — 12 cubic foot

Hydraulic drive enables mixing of stiff loads with no belt slippage.



Extra-thick 5/16" steel tub resists wear and provides longer life especially when working with abrasive materials

Model WM120SHHDS (12 cu. ft.) — mechanical drive, manual dump, steel drum

Stabilizer jacks are retractable and height adjustable allowing the mixer to be placed in virtually any location.

- **12 Cubic Foot Capacity** heavy-duty mortar mixer designed for commercial job sites.
- **Standard hydraulic dump and extra-wide dump lip** for easy transfer of material to wheelbarrows and pan.
- **Stationary design** means no wheel or tow bars to have to work around.
- **Forklift pockets are standard** and provide safe, convenient lifting points when moving the mixer.
- **Heavy-duty, greaseable seals** are engineered to provide a long service life.

Whiteman Concrete Mixers

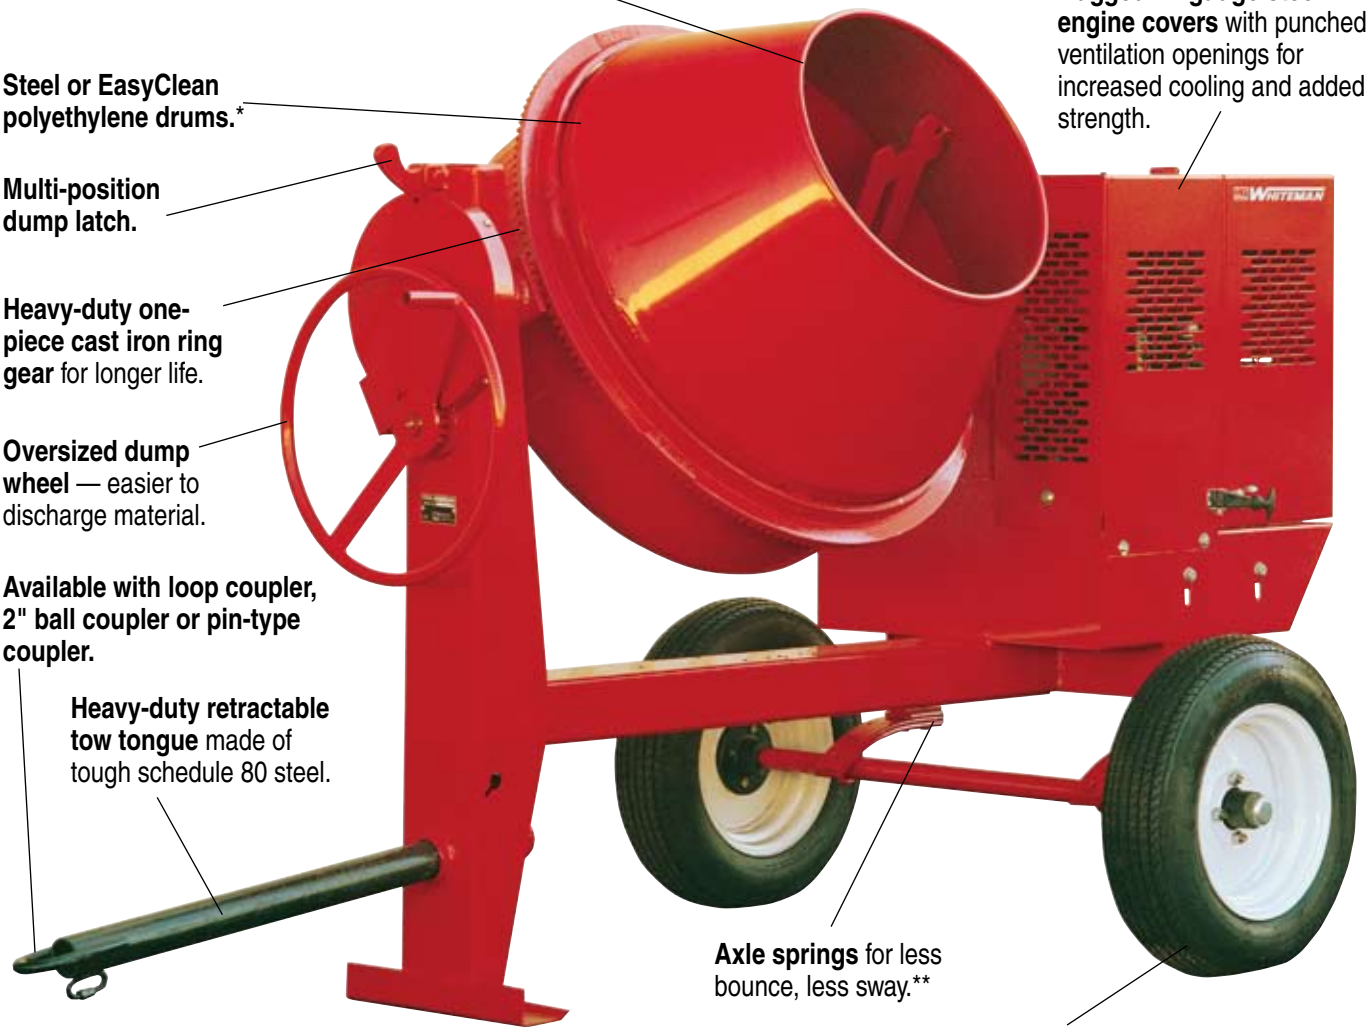
4-, 6- and 9-cu.ft. • Steel or Poly Drums

The ultimate in heavy-duty concrete mixers.

*Available in 4-, 6- and 9-cubic foot capacities, with your choice of power and drum materials.**

Model MC94P (9 cu. ft.)

EasyClean models feature polyethylene drums.



Easy loading drum — wider and lower.

Steel or EasyClean polyethylene drums.*

Multi-position dump latch.

Heavy-duty one-piece cast iron ring gear for longer life.

Oversized dump wheel — easier to discharge material.

Available with loop coupler, 2" ball coupler or pin-type coupler.

Heavy-duty retractable tow tongue made of tough schedule 80 steel.

Rugged 14-gauge steel engine covers with punched ventilation openings for increased cooling and added strength.

Axle springs for less bounce, less sway.**

Large B78x13" tires for smooth towing to your job.

Model MC94S (9 cu. ft.)

** 4-cubic foot models available with steel drums only.*
*** Axle springs not available on 4-cubic foot models.*

Whiteman EasyClean™ Mixers

7-, 9- and 12-cu.ft. Plaster/Mortar Mixers • 6- and 9-cu.ft. Concrete Mixers

EasyClean makes all the difference...

BEFORE

In all standard steel drum mixers, this dried concrete could be a nightmare to clean out...

...but not with an EasyClean mixer! A few taps with a rubber mallet and the dried concrete falls right out!

AFTER

Our innovative EasyClean mixers incorporate polyethylene drums to put an end to clean up problems.

If a load of material is allowed to dry in a steel-drum mixer, removing that material may take several hours — and more often than not, drums can be dented or damaged in the process.

Our tough polyethylene drums can be cleaned in minutes. A tap with a rubber mallet does the job — without dents, rust or cracks!

Model MC94P (9 cu. ft.)

Model WM120PH (12 cu. ft.)

EasyClean available in Plaster/Mortar and Concrete Mixers.
